DETAILED ACTION

Claims 4-14, 17-22, 25, 26, 28, 30, 31, 34, 35, 37 and 39-43 are currently pending in the instant application. Claims 4-14, 19-22, 25, 26, 28, 30, 31, 34, 35, 37 and 39-43 are withdrawn from consideration as being for non-elected subject matter. Claim 17 is rejected. Claims 17 and 18 are objected. Applicants' amendment to claims 17 and 18 filed 28 January 2010 has overcome the objection to these claims for ending with a period. While applicants' amendment has overcome the previous 35 USC 102(b) rejection, since applicants' instant claim 17 is currently rejected under 35 USC 102(b), the objection to claims 17 and 18 as containing non-elected subject matter is maintained.

Election/Restrictions

Applicants' amendment filed 28 January 2010 has amended claims 34, 37 and 39 from composition claims to method of use claims. Additionally, the amendment adds new claim 43 which is also a method of use claim. Therefore, claims 34, 37, 39 and 43 are considered withdrawn claims as they now fall within withdrawn group IX:

Group IX Claims 34, 35, 37, 39, 40 and 43 drawn to methods of use of 2H-pyridinone compositions.

As per MPEP 803.02, the examiner will determine whether the entire scope of the claims is patentable. The examiner has previously indicated that Applicants' elected species is considered allowable. Therefore, according to MPEP 803.02:

Following election, the Markush-type claim will be examined fully with respect to the elected species and further to the extent necessary to determine patentability. If the Markush-type claim is not allowable **, the provisional election will be given effect and examination will be limited to the Markush-type claim and claims to the elected species, with claims drawn to species patentably distinct from the elected

Art Unit: 1626

species held withdrawn from further consideration.

the elected species shall be rejected, and claims to the non-elected species will be held withdrawn from further consideration.

As the elected species has been found allowable, the search and examination had been previously extended to include the compound:

RN 16862-54-7 CAPLUS
CN 2-(1H)-Pyridone, 3-(p-chlorocinnamoyl)-4-hydroxy-6-methyl-1-phenyl-, (E)-
(8CI) (CA INDEX NAME)

Double bond geometry as shown.

, which was not found allowable. Applicants' amendment filed 28 January 2010 has cancelled claims 1-3, 15 and 16 and amended claims 34, 37 and 39 to be withdrawn method claims, which are dependent upon claim 17, which has overcome the 35 USC 102(b) rejection of these claims as being anticipated by Vul'fson (abstract). Therefore, the search and examination has now been extended to include the compound:

RN 16962-48-9 CAPLUS
CN 2-(1H)-Pyridone, 3-(p-chlorocinnamoyl)-4-hydroxy-1,6-dimethyl-, (E)- (8CI)
(CA INDEX NAME)

Double bond geometry as shown.

which is not allowable.

Claims 17 and 18 have been examined to the extent that they are readable on the elected embodiment, the elected species of example 3a-32 and the additional species of the compound of:

RN 16862-49-9 CAPLUS
CN 2(1H)-Pyridone, 3-(p-chlorocinnamoyl)-4-hydroxy-1,6-dimethyl-, (E)- {8CI}
{CA INDEX NAME}

Double bond geometry as shown.

. Since the elected embodiment is not allowable, subject matter not embraced by the elected embodiment is therefore withdrawn from further consideration. Claims 4-14, 19-22, 25, 26, 28, 30, 31, 34, 35, 37 and 39-43 are therefore withdrawn from consideration as being for non-elected subject matter. It has been determined that the entire scope claimed is not patentable.

Claim Objections

Claims 17 and 18 are objected to as containing non-elected subject matter. Claims 17 and 18 presented drawn solely to the elected embodiment identified supra would overcome this objection.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

Art Unit: 1626

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 17 is rejected under 35 U.S.C. 102(b) as being anticipated by Vul'fson (abstract).

Vul'fson discloses the compound, for example, of formula IV wherein R is Me and R1 is p-Cl, specifically:

FN 16962-48-9 CASUS
 CH 2(1H)-Pyridone, 3-(p-chlorocinnamoyl)-4-hydroxy-1,6-dimethyl-, (E)- (8Cl)
 (CA INDEX NAME)

Double bond geometry as shown.

which corresponds to the 2(1H)-pyridinone composition as claimed in claim 17, for example, wherein rII is H; rII' is methyl; k is 1; and XIII is chlorine. The compound in the Vul'fson reference corresponds to the composition of claim 17 as the preparation of formula IV wherein R is Me and R1 is p-Cl was in piperidine or in 10% aqueous NaOH and MeOH. Methanol corresponds to the inert carrier (defined in the instant specification to include pharmaceutically acceptable carriers) in the composition claim.

In regards to the inert carrier, as can be seen by Schubert et al. (previously disclosed on a PTO-892) methanol is considered a pharmaceutically acceptable organic solvent, see page 125 which states that the method uses pharmaceutically acceptable organic solvents and page 126 which discloses methanol as a solvent.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
